LIASON-4

29 March 1972

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting With Russell S. McClure and William Dalton, AID

1. This afternoon I was visited by Russell S. McClure, Disaster Relief Coordinator for AID, and his Chief of Operations, William Dalton. These men are charged with coordinating the national effort when a foreign country requests assistance in coping with a disaster. They are in process of organizing a data base and planning an Operations Center. They came seeking guidance and assistance.

2. I'm going to do what I can for them in terms of maps, NIS publications, and some of our Geographic projects. I suggested that they contact [redacted] [redacted] to see if they could arrange a tour of the Operations Center seeking guidance as to how to organize their own. Mr. McClure will also be calling Ed Proctor to touch base with respect to the above suggestions.
